

City of Rome

Community Gardens

The Rome experience has shown how community gardens can become centres of resilience, inclusion and social aggregation, promoting a strong and cohesive urban collective identity.

The definition for the Citizens of Rome

Green space

A Community Urban Garden is defined as a space that can be seen and enjoyed by all

Impact on Citizenship

The community garden is a way to give back to citizens a space where people meet, discuss and learn to share

Regulation

A community garden establishes its own rules and operations, self-determining and defining itself as part of a community
